| 2 AutoConnect™ | → | No port forwarding | ✓ |
| 3 RealTimeResource™ | → | No remote IP addressing | ✓ |
| 4 Highly secure | → | AES 256 encryption | ✓ |
| 5 Authentication | → | X.509 certs | ✓ |
| 6 Wired and Wireless | → | WiFi and cellular | ✓ |
| 7 Full LAN functionality | → | Layer 2 bridge | ✓ |

This is not your Grandmother's IPsec VPN. Get with the times! Get Welbeck

Don't waste time and money configuring old fashioned VPN's

Welbeck is pre-configured. So its easier and cheaper to set up and to maintain.

Built-in failover redundancy at Layer 2 – so no need to re-establish sessions.

Plus there is no room for error, so the security you need is the security you get.

Easy, secure, low-cost connections for:

Branch offices

Teleworkers

Traveling executives

Factories and warehouses

Remote sites

Datacenter to datacenter

Replication and DR

Cloud access and integration
